

AIRGO FUSION ROLLATOR BY DRIVE MEDICAL

SKU: 700-93

Product Overview

The Airgo Fusion Rollator Transport Chair combines the stability of a rollator with the convenience of a built-in transport chair in one simple design. Ideal for users who value independence but may require occasional assistance, it easily converts between walking and seated transport modes. Its lightweight yet durable frame provides reliable support for everyday mobility.

Features

- 2-in-1 design functions as a rollator walker and a transport chair
- Padded seat with full contoured backrest for comfort
- Reversible armrests for proper support during seated transport
- Ergo-Form handgrips for improved comfort and brake access
- Tool-free, easy-adjust brake system
- Reflective, removable, machine-washable storage basket
- Swing n' Lock removable footrests for transport mode
- Simple fold system with locking mechanism for safe lifting
- Available in Black, Blue, and Red

What's Included:

- Airgo Fusion Rollator frame
- Reversible armrests
- Padded seat and backrest
- Removable storage basket
- Swing n' Lock footrests
