

NITRO SPRINT BY DRIVE MEDICAL

SKU: 102622

Product Overview

The Nitro Sprint Rollator by Drive Medical is a lightweight, reinforced rollator designed for enhanced control, stability, and everyday comfort. With a 350 lb weight capacity and large 10" front wheels, it performs confidently on varied indoor and outdoor surfaces. Integrated slow-down brakes and an improved braking system provide added safety and durability. Its side-to-side folding frame allows for easy one-hand transport and storage.

Features

- 350 lb weight capacity with patented reinforced frame
- Integrated slow-down brake system for better terrain control
- Enhanced brake design for reduced tire wear and easier service
- Large 10" front wheels for smoother rolling stability
- One-hand side-to-side folding design
- Padded seat with contoured backstrap
- Built-in accessory mount for cup, cane, or smartphone holder
- Multi-position storage bag for convenient access

What's Included

- Nitro Sprint Rollator
- Storage bag
- Contoured backstrap
