

STELLA ROLLATOR BY AMYLOR

SKU: AS-CGR-Stella

Product Overview

The STELLA Rollator by Amylor is an ultra-lightweight mobility aid designed to support safe, independent daily movement. Built on a durable aluminum frame and weighing just 14.75 lb in its standard configuration, it offers exceptional portability without compromising stability. An oversized, height-adjustable backrest and reinforced seat provide comfort and confidence while seated.

Features

- Lightweight aluminum frame weighing only 14.75 lbs
- Reinforced seat for added durability and support
- Large height-adjustable backrest strap for enhanced comfort
- Four 8" casters with urethane tires for indoor and outdoor use
- Height-adjustable handles with a quick-release system
- Locking brakes for secure ambulation and sitting
- Includes storage bag, cane holder, curb climbers and cup holder
- Additional Footrests & Armrests can be used on this walker to turn it into a **transport chair** for easy caregiver-supported mobility.
- Available in Black, Blue, and Red
