

IWALK CRUTCH 3.0

HANDS FREE CRUTCH

SKU: MO-iWalk

Product Overview

The iWALK3.0 is a hands-free crutch alternative designed for individuals with non-weight-bearing lower leg injuries. Unlike traditional underarm crutches, it supports the injured leg at the knee, allowing users to remain mobile without placing strain on the hands, wrists, or shoulders. Lightweight and height-adjustable, it enables greater independence for everyday tasks at home or work.

Features

- Hands-free mobility for below-the-knee, non-weight-bearing injuries
- Adjustable upper and lower leg supports for a customized fit
- Lightweight design (4.8 lbs / 2.1 kg)
- Quick-release buckles for easy on and off
- Cushioned thigh platform for improved comfort
- Patented offset foot with durable Vibram™ pad for added stability
- Promotes natural gait using the upper leg muscles
- 275 lb weight capacity
